

AROUL | ENGINEERING

ISO 9001 - 2015 Company

Company Profile

About us

We are a professionally managed ISO 9001 - 2015 certified company providing precision machining solution for the auto industry, using our vertical machining center (VMC) and horizontal machining center (HMC). Founded in 1989 by Mr. S. Navaneethakrishnan, after 20 years of experience serving various position in Indian Railways and private sectors, as a small conventional machine shop for gear manufacturing. In 1996, Aroul Engineering ventured into CNC machining as a logical addition to our conventional set-up. Today, Aroul Engineering has grown to be a name to be reckoned with for it's quality delivery of auto components in Chennai. Mr. Navaneethakrishnan's vision, capability and hard work, as lead Aroul Engineering to grow and reach these new frontiers.

Our past work include, Cast Iron and Aluminum steering boxes for Mahindra, Fiat Palio, Tata Indica and Daewoo in volumes and other automobile components like master cylinder, engine oil pump for small agricultural engines. Spur and Helical gears for Ashok Leyland, TVS scooty, Whirlpool washing machines, and Railway point and singal machines. In our years in industry, we as a vendor have been rated as good or excellent by many reputed concerns like M/S Simpsons Ltd., Brakes India Ltd., Autolec Industries Ltd., Rane Madras Ltd. for our work.

Much focus is given on our employees welfare. We have given them company accommodation and production based incentive structure. The structure is so formulated that it will pay rich dividends to the employees every month if they achieve the production targets without any customer complaints. Our employees are all duly motivated and encouraged not only by words but in deeds. We are very much committed and professional in our approach, these qualities has brought us to this level and we hope to reach much higher levels in the future on a continual improvement basis.

“Our vision is to deliver quality products in time and to create value for our Customers.”

Our Group Companies:

- 1) APS CNC - A3, Mugapair west Industrial Estate, Chennai 600037
- 2) Aroul Spares - D11, Mugapair west Industrial Estate, Chennai 600037

Our Esteemed Customers:

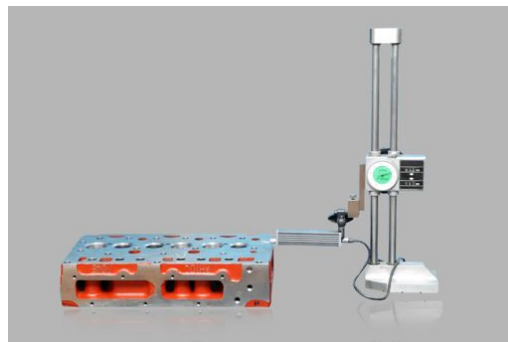

Machinery Strength:

- 1) Makino A51 HMC - 2 Nos.
- 2) Dahlih VMC with rotary axis - 13 Nos.
- 3) Twin Spindle VMC - 1 No.
- 4) AMS winner VMC - 1 No.

Inspection Facilities:

- 1) Coordinate Measuring Machine TESA (Swiss make) - 1 No.
- 2) 2D TESA micro height (Swiss make with IG 13 probe) - 4 Nos.
- 3) Digital Air Gauge - 50 Nos.
- 4) All type of regular instruments.

Special Infrastructure:

- 1) Dedicated Training Center with library.
- 2) All units are backed up power generators.
- 3) Almost all machines have UPS backup system to avoid rejections during power failures.
- 4) Additional compressors, driers, and stabilizers.
- 5) Material handling facilities like forklift, hoists, etc.
